

SAFEGUARDING OUR PUPILS ONLINE

PLEASE BEAR THE FOLLOWING IN MIND.

1. Allowing unlimited access to the internet, youtube, social media and games that include online chat CAN upset or worry your child.
2. SET PRIVACY CONTROLS AND CHECK INTERNET HISTORY REGULARLY.

3. Many new social media apps are brought out every week.
Many are age-restricted for good reason!

4. Do you know who is at the other end of your chat?

WE ARE NOT AGAINST PROGRESS AND
'LIFE TODAY' BUT WE ARE DETERMINED
TO KEEP OUR PUPILS SAFE.

Sadly, we are getting more and more cases of pupils sending unpleasant messages, having accounts hacked by strangers and pupils sharing internet content that is NOT APPROPRIATE.

This comes from outside the school and we do urge that you are vigilant.

ADVICE

- Use the NES LEARNING ZONE to find out about new, potentially harmful, apps.
- Check security settings and think carefully about unlimited access to YouTube!
- Share your child's online world and let them show you what they do – ignorance is NOT bliss!

DIGITAL PARENTING MAGAZINE

An excellent all-round introduction!

Copies available here or online (NES Learning Zone).

If concerned, please come to speak with us.
