Young String Players

String Duets

'Young String Players' presents a series of duets for Violin, Viola and Cello, carefully crafted to enhance technical and musical development during the first years of study.

A piano accompaniment is provided for each title and is a fundamental addition to the score. While giving an audible pulse and a guide for secure intonation, the piano introduces colour and texture to the music, giving the young player a more satisfying musical experience.

The duets are readily played by the youngest of beginners, giving them an enjoyable and confident introduction to making music together.

Young String Players' duet series is the perfect resource for a junior school string department and a valuable addition to early years string programmes.
