

Progression of online safety Resources 2018-19 KS1 & KS2

The [new Ofsted handbook](#) and guidance have made the expectations that need to be met very clear. This is a summary of them:

- All teaching and non-teaching staff should be aware and able to recognise e-safety issues with high-quality leadership and management to make e-safety a priority
- High priority given to training and continuation training to all staff, including the contribution of the wider school community. One member of staff to receive accredited training (for example: to become an e-safety officer)
- Clear reporting processes
- Rigorous, plain English policies and procedures integrated with other relevant policies
- Progressive e-safety curriculum
- Provision of a recognised internet service provider (ISP) with age-related filtering
- Good risk assessment

Online Safety Resources

- There are other CEOP videos aimed at the 11 - 14 age range. Some primary schools may consider it appropriate to use these in Y6 . . . ??
- **“Let’s Fight it Together”** - A boy is relentlessly teased and bullied by phone text and internet.
- **“Consequences”** - an older teenage boy harvests online information to befriend a teenage girl. He coaxes & extorts her to provide increasingly sexual images. USE WITH CAUTION!
- **“Exposure”** - a teenage girl regrets sending her boyfriend a few saucy photos through her phone as he shares them with all the world.
